

Annual Index 1973

January through
December

Published by the National Wildlife Federation, 1412 Sixteenth Street, N.W., Washington, D.C. 20036

You can use this index to help you find anything that was in Ranger Rick's Nature Magazine from January to December 1973. Just look in the alphabetical listing for the subject you want to find. After each subject are the month and page number in which that subject appeared. For example: You want some information on the clam. Look for the word clam in the "C's." You will see Clam: July 16. You will find what you need on Page 16 in the July issue.
